

Plan an escape route

Plan an escape route and make sure everyone knows how to escape. It could save your life.

- Establish where the fire exits and alarms are if you live in a large or high level building.
- Count how many doors you might need to go through to escape. It can be hard to see in smoke and you might become confused about where you are.
- Keep all exits clear, even communal areas.
- Keep fire doors closed. They help to slow down the spread of fire and will give you extra time to get out.

Keep door and window keys where everyone can find them
